

# IV Antibiotics

## Comfort and Care in Familiar Surroundings

### Minimize hospital stays and improve quality of life with in-home, individualized care from Amerita.

Provide your patients with peace-of-mind, the comforts of home, and personal attention from an experienced clinical team of pharmacists and nurses that manage their IV antibiotic therapy. To support physicians, our experts provide clinical oversight to assist with drug therapy optimization. With Amerita's clinical expertise and local customer service, your patient receives the quality care they deserve.

### Enhance Therapy through Education and Communication

As part of our unique patient-focused program, Amerita:

- Provides each patient with thorough, easy-to-understand education and hands-on training
- Reviews drug and dose rate adjustments, drug interactions and contraindications of therapy
- Maintains regular, ongoing communication with patients to quickly identify and resolve any issues
- Meets the special needs of patients who cannot manipulate IV equipment by providing elastomeric infusion devices

### Refer Without Worry

With one phone call, you can be certain your patients receive the best possible care from Amerita:

- Timely insurance verification expediting patient care
- Coordinated pharmacy, nursing and home care
- Clinical feedback in case your patients need therapy modification

### Make the Right Call

Meet the IV antibiotic therapy needs of your patients with local, experienced and trusted care. Contact your Amerita representative today.
